SUPPLEMENT STOCK AT A BARGAIN - QUALITY YOU TRUST

As our national wholesale sub-rental linen program has grown, certain overstock inventory positions create opportunity for selloff.

Such items are gently used and well maintained, pulled directly from our existing rentable inventory on hand. They have been cared for and quality controlled as our own, free of defects, stains, and any other imperfections we would not send out for rental!

Selling off used inventory at a bargain allows us to make space for and commitment to replacing such items with new and fresh inventory.

The marketplace benefits are dual. Ultimate continues to offer the highest quality rental inventory available wholesale; for example, our Whites will be replaced more often than the competitors'. At the same time, wholesale buyers in the market gain a new bargain source via an existing trusted supply chain.

With this new distribution channel, Ultimate helps customers stay one step ahead. Browse and shop our available inventory at www.ultimatetextile.com, call, or email for availability listings.

Disclaimer: the term "rentable inventory" is defined by our subjective level of inventory acceptability. Different than the expectations on a per order basis, dye lots on a RISOP order can be mixed. Sales are final. Offer is available only as supplies last and is subject to change without notice anytime.
